

## NOTICE : ARTICLE 443.1.

### ROAD SAFETY

“Every driver of a road vehicle is prohibited from using a cell phone or any other portable electronic device designed to send or receive information or to be used for entertainment purposes, and from using a display screen. [...] The driver of a road vehicle who is holding a portable electronic device in hand or in any other manner is presumed to be using the device.”

The law stipulates that the cell phone must be fixed at all times to a solid support when it is used by the driver of a motor vehicle. It is forbidden to place the device between his legs, in the cup holder or in the passenger seat.  
Support device is the best solution.

#### TO PREVENT THIS LAW :

- Fines ranging from \$ 300 to \$ 600
- 5 demerit points (that mean, losing your probationary license)
- Suspension of driving license from 3 to 30 days in case of recidivism
- Fines also for cyclists

The sales representative read me the notice and I understood the terms.

I obtained a cellular support as proposed by law.

I refuse to get a cellular support. The sales representative read me the details of the law and the possible sanctions.

I already have a cellular support.
